

| ÁREA | TÍTULOS E AUTORES |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Agrofood & Environment | Comunicações Orais |
| | 1 Saúl Simão Monteiro Fernandes 16970 Induction of bystander effect by different contaminants on soil oligochaetes |
| | 2 Ricardo Jorge Vieira Soares 16976 Effects of high Zn concentrations on Solanum lycopersicum L.'s nitrogen and GSH metabolism |
| | 3 Daniela da Silva Mendes 16694 Multicopy versus unicopy genes as potential molecular markers for the detection of sesame as an allergenic food |
| | Comunicações por Poster |
| 4 Orlanda Couto Ferreira 16982 Microplastics contamination in aquatic organisms from the Atlantic Ocean (Madeira Islands region) and human exposure through seafood consumption - preliminary results | |
| 5 Dayane Araújo 16753 Geological route in the Historical Center of Oporto as a tool in Science Education | |
| Architecture | Comunicações Orais |
| | 1 Maria Francisca Barbosa Guimarães Mesquita 16734 Know how to make architecture: from didactics to practice in a parallel between Porto and Oslo |
| | 2 Jorge Miguel Ribeiro Alves 16770 MARCO DE CANAVESES, BETWEEN DOURO AND TÂMEGA: OBSERVATION OF A NETWORK OF CENTRAL PLACES |
| | 3 Francisca Maria Novais de Mendonça e Gomes Teixeira 16778 SPACE APPROPRIATION AND IDENTITY |
| 4 Nadine Jean-Pierre Naudin 16769 The house from the roof: attic transformation in Lugo | |
| Arts | Comunicações Orais |
| 1 Grécia Paola Gouveia Matos 16632 An Inexhaustible Will of Infinite: From pain to creation | |
| Biological Sciences | Comunicações Orais |
| | 1 João Pedro Oliveira Neves 16651 Effect of abiotic stress in Plant Specific Insert (PSI) expression and localization? |
| | 2 Joana Sofia Leitão Moreira e Castro 17074 Hoxd13 targets and vertebrate limb evolution |
| | Comunicações por Poster |
| | 3 Rafael Carneiro Lopes 16842 Characterisation of invariant natural killer T cells in Gaucher disease and correlation with memory B cells |
| | 4 Gonçalo Marques Vila Ferraz 16685 Genomic drivers underlying distinctiveness of the Angolan giant sable |
| | 5 Helena Sofia Martins Monteiro 16891 Planctonic communities of Sado's estuary: an ecological evaluation |
| 6 Marta Isabel Lopes de Sousa 16784 Metabarcoding vs Microscope Approaches to Study Arctic Eukaryotic Microbiome | |
| 7 Ana Teresa Torres Fernandes 16754 Influence of the cell wall in the post-Golgi traffic in protoplasts | |

| | |
