THE 2023 QS WORLD UNIVERSITY RANKINGS
WILL BE LAUNCHED ON 8 JUNE 2022
www.topuniversities.com

WELCOME!

University of Porto

Portugal

The **QS World University Rankings 2023** will be published on topuniversities.com on 8 JUNE 2022.

This fact file will enable you to understand your performance and engage your PR and marketing departments in preparation for our global launch. We also encourage you to reach out to the QS Director for your region to discuss your results and find out if QS can support in other ways. If you do not know your regional director is, please ask and we'll let you know.

INSTITUTION CLASSIFICATION

QS Classifications make it easier to quickly identify and compare institutions with similar characteristics. To find out more about how the classifications are compiled please visit

<https://support.qs.com/hc/en-gb/articles/360021876820>

SIZE	Very Large	Large	Medium	Small
STATUS	Public	Private - Not for Profit		Private
RESEARCH INTENSITY	Very High	High	Moderate	Low
SUBJECT AREA FOCUS	Comprehensive+	Comprehensive	Focused	Specialist

METHODOLOGY: Performances Lenses & Weightings

The QS World University Rankings® have been published since 2004. Whilst the headline measures have not changed since 2005, we introduce refinements to provide even stronger results year after year.

Academic Reputation	Taken from the QS Global Academic Reputation Survey, here we evaluate the perceptions of worldwide academics on which universities are academically excellent. 151,000 responses were used in this year's analysis.	 40%
Employer Reputation	Taken from the QS Global Employer Reputation Survey, here we evaluate the perceptions of worldwide employers on which universities produce the best graduates. 99,000 responses were used in this year's analysis.	 10%
Faculty Student Ratio	This is the ratio of academic staff to students. A higher number of staff:students is an indirect indicator of a university's commitment to learning and teaching.	 20%
Citations per Faculty	This ratio measures the average number of citations obtained per faculty member, and is an estimate of the impact and quality of the scientific work produced by universities. This indicator is calculated using data from Scopus. To avoid anomalous results, an affiliation cap is applied discarding papers with an unusually high number of affiliations. Self-citations are excluded and citation counts are normalized, ensuring that citations achieved in each of the five broad faculty areas are weighted equally (more information: https://support.qs.com/hc/en-gb/articles/360021456540-Faculty-Area-Normalization).	 20%
International Faculty Ratio	The International Faculty Index is simply based on the proportion of faculty members that are international. It is a proxy measure for how internationally attractive the university is to academic staff.	 5%
International Students Ratio	Similar to the international faculty ratio, this not only serves as a proxy for how attractive the university is to international students, but how internationalised the student experience will be.	 5%
Employment Outcomes	Employment Outcomes reflects the ability of institutions to ensure a high level of employability for their graduates, while also nurturing future leaders who go on to make an impact in their respective fields. For this, we have combined two metrics, widely known from our QS Graduate Employability Rankings: Graduate Employment Rate and Alumni Outcomes Index (more information: https://support.qs.com/hc/en-gb/articles/4744563188508-Employment-Outcomes-).	 0%
International Research Network	IRN Index reflects the ability of institutions to diversify the geography of their international research network by establishing sustainable research partnerships with other higher education institutions. It also reflects the efficiency of this as we look at the diversity of partner locations against the efforts needed to achieve such a diversity (more information: https://support.qs.com/hc/en-gb/articles/360021865579-International-Research-Network-IRN-Index) .	 0%

International Students	523	⬆️	-36
International Research Network (unweighted)	41	●	
Employment Outcomes (unweighted)	211	●	

At 41 globally, the **International Research Network** is the strongest indicator for **University of Porto**.

SCORES BY INDICATOR

EACH INDICATOR CAN REACH A MAXIMUM OF 100 POINTS

UNDERLYING DATA

This is the underlying data used for the rankings calculations. You will have verified this data during our underlying data check stage. Variations may be expected as a result of validation by our team. If you have further queries please submit a ticket at <https://support.qs.com>

For all papers and citations numbers on this page, we do not count certain affiliations (such as overseas campuses) and apply our usual paper-type and andaffiliation-cap exclusions (<https://support.qs.com/hc/en-gb/articles/360019107580>).

A technical explanation of the citations normalization process can be accessed here: <https://support.qs.com/hc/en-gb/articles/360021456540-Faculty-Area-Normalization>

International Research Partners and Research Partner Location figures represent the average across five faculty areas (see IRN methodology). <https://support.qs.com/hc/en-gb/articles/360021865579-International-Research-Network-IRN-Index>

Bibliometric data

Powered by **Scopus**

Students and faculty figures above are full-time equivalent (FTE). In those cases where only the headcounts were available, the FTE was calculated by applying a ratio based on country or regional average. When breakdown by undergraduate and postgraduate was available we used the sum total.

Scopus numbers extracted in February 2022 – variation in live database is to be expected.

Papers period: 2016-2020.

Citations period: 2016-2021

UNDERLYING DATA & RATIOS

The following charts present the ratios utilized for rankings calculations for your institution, compared against the global median results.

CITATIONS PER FACULTY

Normalized citations per faculty member

FACULTY STUDENT RATIO

Faculty staff per 100 students

INTERNATIONAL FACULTY RATIO

International faculty staff per 100 faculty members

INTERNATIONAL STUDENTS RATIO

International students per 100 students

online learning in India

QS

QS Consulting

A trusted strategic advisor to achieve global education excellence

QS Consulting helps governments, universities, organizations and think tanks gain competitive advantage in the global higher education landscape.

1

Build reputation and brand

We increase your global reach by assessing and advising on how to communicate your brand.

2

Enable internationalisation

We support universities to improve their global engagement strategy.

3

Build strategic partnerships

We help universities create and develop partnerships based on strategic priorities and global scientific trends.

4

Achieve Sustainable Development Goals

We guide universities with their alignment to SDGs.

5

Improve employability

We advise universities on best practices for employability and for engaging with employers.

6

Achieve recruitment objectives

We create student profiles and engagement strategies to increase international student enrolments.

7

Assess performance against objectives

We use data and performance insights as a tool for strategic planning and performance improvement.

QS

Evidence-based decision making at your fingertips

QS Rankings

Our analyses identify institutional strengths, gaps and opportunities individually and comparatively at national, regional and global levels. Based on these findings, we develop a comprehensive set of strategic recommendations to ensure robust and potentially improved institutional performance.

QS Analytics

QS Analytics reports provide higher education professionals with millions of datapoints and unpublished data on the competitive position of a given institution.

MoveON

MoveON is a data and insights-based SaaS platform that empowers international and mobility teams to achieve their institution's internationalisation goals.

QS Consulting

QS Consulting helps governments, universities, organisations and think tanks gain competitive advantage in the global higher education landscape.

QS Stars

QS Stars is a rating system providing your institution with an overall score, as well as ratings in 12 categories, which you can use to promote your brand on an international scale.

QS Publications

QS Publications bring together insight and knowledge for professionals in higher and international education to understand the latest trends in the sector.

QS Conferences

QS Conferences bring international leaders together to celebrate academic excellence and innovation in higher education.
